School Library Media Materials
Support for Project Basic

INTRODUCTION

In order to provide the local school systems with a bibliography of suggested resources which would support the Project Basic Instructional Guides, the Project Basic Office and the School Library Media Services Branch, Division of Library Development and Services, agreed to jointly produce a document which suggested materials for each of the competencies in the areas of Citizenship, Survival, and the World of Work. Since each local school system has its own policies and procedures for the evaluation and selection of materials, as well as for their procurement, the document is to be used within each system according to its own criteria.

This bibliography consists of annotated listings of student-use materials (library books, films, filmstrips, kits, records, games, audio and videotapes, filmloops, transparencies, periodicals, and pamphlets) arranged according to competencies and objectives. All items listed were researched to verify their availability at the time of publication. Use of specific materials will depend on the levels of student's skill needs, abilities, and maturity. School personnel will want to preview the materials before use.

The resources listed in this document were compiled by members of the School Library Media Services Branch Staff, based on recommendations from pilot school library media specialists. The following individuals were of assistance in compiling this support document:

SURVIVAL OBJECTIVE 2.1.1.1

The student will describe the positive and negative effects of drugs on the human body.

GOAL:

To demonstrate a knowledge of factors which affect an individual's physical, mental, and social health

COMPETENCY:

Knowing physical health and safety practices

GRADE LEVEL OF OBJECTIVE:

9-11

PRINT RESOURCES:

Author: Cain, Arthur H.
Title: Young People and Drugs
Copyright Date: 1969
Publisher: Day
Interest Level: 8-12
Annotation: The author uses the results of a survey aimed at finding out about the psychological and medical effects of mind-altering drugs to concentrate on the question of why young people turn to drugs. The text emphasizes the failure of drugs to satisfactorily deal with the reasons for using them.

Author: Hyge, Margaret O.
Title: Addictions: Gambling, Smoking, Cocaine Use and Others
Copyright Date: 1978
Publisher: McGraw
Interest Level: 8-12
Annotation: This author takes a very comprehensive look at several kinds of addictions - including cigarette smoking, gambling, over and under eating as well as drug addiction. Up-to-date scientific research is included on some topics.

Author: Hyde, Margaret O.
Title: Know About Alcohol
Copyright Date: 1978
Publisher: McGraw
Interest Level: 4-7
Annotation: The author's objective is to provide enough information about the use of alcohol to enable young readers to make their own decision about whether or not to drink. The text includes the effects of alcohol on the body, common symptoms of alcohol abuse, and the inverse relationship between good self-image and self-confidence and the chances of one's becoming an alcoholic.

Objective 2.1.1.1 - Print Resources (continued):

Author: Lubowe, Irvin I.
Title: Teen-Age Guide to Healthy Skin and Hair - 3rd edition revised and updated by Irvin Lubowe and Barbara Huss
Copyright Date: 1979

Annotation: In this revised edition, new chapters explore the effects of drugs and alcohol on the body.

Author: Madison, Arnold
Title: Smoking and You
Copyright Date: 1975
Publisher: Messner
Interest Level: 4-7
Annotation: To make a case against smoking, the authors explain the effects on the respiratory system and vital organs within the body. The history of smoking and current research findings complete the argument.

Author: Silverstein, Alvin and Virginia Silverstein
Title: Alcoholism
Copyright Date: 1975
Publisher: Lippincott
Interest Level: 5-7
Annotation: The effects of alcohol on the body and the extent of alcoholism are explored.

Author: Silverstein, Alvin and Virginia Silverstein
Title: Allergies
Copyright Date: 1977
Publisher: Lippincott
Interest Level: 4-8
Annotation: The causes and types of allergic reactions and the triggering of an allergic response are discussed in nontechnical terms. Hay fever, asthma, insect stings, and food, skin, and drug allergies are included.

Author: Vogel, Victor et al.
Title: Facts About Narcotics and Dangerous Drugs (Braille Series)
Copyright Date: 1979
Publisher: American Printing House for the Blind
Interest Level: 9-12
Annotation: Facts about the physical effects of narcotics and drugs on the body, the kinds of people who use drugs, and the prevention and treatment of drug addiction are included in this text. Opium, marijuana, cocaine, LSD, and STP are discussed. A useful bibliography is included.

Objective 2.1.1.1 - (continued)

NONPRINT RESOURCES:

Series Title: Alcohol and Teenagers: Four Case Studies
Individual Title: Who's Drinking; Dealing with Drinking; Family Divided
Description of Item and Components: 3 filmstrips, 3 cassettes, guide
Producer: Sunburst
Copyright Date: 1979
Interest Level: 9-12

Objective 2.1.1.2 - Nonprint Resources (continued):

Series Title: The Great Nutrition Robbery
Description of Item and Components: 3 filmstrips, 3 cassettes, guide
Producer: Westinghouse
Copyright Date: 1973
Interest Level: 5-12
Annotation: This series of three dramatizations demonstrates what you should and should not eat. It clarifies a number of popular misconceptions about nutrition and identifies areas of controversy - areas about which responsible scientists have yet to agree. The first filmstrip takes a Hitchcock-styled look at the benefits of a well-balanced diet to body and being; the second filmstrip rewrites Adam and Eve as it probes the way we pollute our body's ecological system with processed junk food; and the third filmstrip comes to grips with today's problems of organic versus non-organic and natural versus synthetic vitamins.

Individual Title: Improving Teenage Nutrition
Description of Item and Components: 1 filmstrip, guide
Producer: Federal Extension Service
Copyright Date: n.d.
Interest Level: 6-12
Annotation: This filmstrip recognizes the need for improving teenage nutrition and planning ways to improve nutrition for all.

Series Title: Natural Nutrition
Individual Title: Growing Up Terrific; What Keeps You Growing?; What Keeps You Going?; Take Good Care of Yourself
Description of Item and Components: 4 filmstrips, 4 cassettes, guide
Producer: Cypress
Copyright Date: 1979
Interest Level: 3-9
Annotation: The objective of this filmstrip is to help children make the connection between what they eat and how they feel and behave. It encourages youngsters to assume as much responsibility as they can for their own good eating habits and attempts to motivate them to want natural foods, reject junk foods, and to choose and prepare good food for themselves and others.

Series Title: Nutrient Needs
Description of Item and Components: 1 filmstrip, 1 cassette, manual
Producer: Encore

Objective 2.1.1.2 - Nonprint Resources (continued):

Copyright Date: 1978
Interest Level: 5-12
Annotation: This sound filmstrip shows the purpose of each of the five basic nutrients (fats, carbohydrates, proteins, vitamins, and minerals), lists those foods that are good sources of each nutrient, points out the problems caused by an unbalanced diet, and cautions against eating empty-calorie foods.

Series Title: Nutrition: Food vs. Health
Individual Title: Part I - Food Game; Part II - Consumer Viewpoint
Description of Item and Components: 2 filmstrips, 2 cassettes, guide
Producer: Sunburst
Copyright Date: 1975
Interest Level: 6-8
Annotation: This kit uses a quiz show format to emphasize the nutritional needs of the body and the importance of meeting them. It discusses health problems caused by poor eating habits, food processing, and the role of manufacturing and advertising in promoting low-nutrition "junk" foods. The program outlines the effects on the body of sugar, saturated fats, excessive salt, as well as whole grain foods, fruits and vegetables, and protein sources.

Series Title: Nutrition for You
Individual Title: What is Nutrition; You Are What You Eat
Description of Item and Components: 2 filmstrips, 2 cassettes
Producer: Educational Activities
Copyright Date: 1977
Interest Level: 3-8
Annotation: The series details how food is related to health and growth. It emphasizes the body's need for nutrients, not specific foods.

Series Title: Snack Facts
Description of Item and Components: 1 filmstrip, 1 cassette
Producer: Encore
Copyright Date: 1975
Interest Level: 1-6
Annotation: With clever artwork which takes a humorous look at today's multiplicity of snack foods, this filmstrip considers the subject of good nutrition through eating proper foods. It discusses the body's need for vitamins, proteins, minerals, fats, and carbohydrates; defines calories; identifies four basic food groups; and points out the need for variety in the diet.

Series Title: Teenage Nutrition: The Picture of Health
Individual Title: Staying Fit; Getting Fit
Description of Item and Components: 2 color filmstrips, 2 cassettes, guide
Producer: Current Affairs
Copyright Date: 1977
Interest Level: 6-12
Annotation: Male and female teenage actors give factual up-to-date information on "getting fit" and "staying fit". Then they explore the problems of deficiencies and excesses in diet with their concomitant results.

Series Title: Drugs: FDA's Life Protection Series
Description of Item and Components: Transparencies with overlays, booklets, guide
Producer: DCA
Copyright Date: 1968
Interest Level: 4-12
Annotation: This series of two units on drugs was developed to help students build a proper respect for the medicines found today on any drug store or supermarket shelf. The units are titled How Safe Are Our Drugs?, recommended as a beginning study, and The Use and Misuse of Drugs, recommended for the more mature student. of contagious diseases and emphasizes public health facilities.

Series Title: Man Against Disease
Description of Item and Components: 1 filmstrip
Producer: Popular Science
Copyright Date: 1960
Interest Level: 6-8
Annotation: Emphasis is placed upon methods the body employs to protect itself against diseases. The filmstrip also discusses the various bacteria and viruses that can attack the body.

Series Title: Staying Healthy Series
Individual Title: Health Protection; How Some Diseases Occur; Defenses of our Bodies; Our Problems With Spreading Diseases
Description of Item and Components: 4 filmstrips, 4 cassettes, guide
Producer: BFA
Copyright Date: 1978
Interest Level: 6-8
Annotation: Two filmstrips in this series are quite helpful in the study of communicable diseases - How Some Diseases Occur and Our Problem With Spreading Diseases. Individual responsiblity for maintaining personal health is emphasized in both.

SURVIVAL OBJECTIVE 2.2.1.1

The student will describe how humans are part of an environmental system.

GOAL:

To make effective decisions and take appropriate actions regarding one's self in relation to the use and control of nature and technological systems

COMPETENCY:

Understanding the interaction of people with the natural environment

GRADE LEVEL OF OBJECTIVE:

6-8

PRINT RESOURCES:

Author: Jennings, Gary
Title: Shrinking Outdoors
Copyright Date: 1972
Publisher: Lippincott
Interest Level: 7-12
Annotation: This book pinpoints specific causes of pollution and the attendant problems pollution poses for the outdoor world.

Author: Jones, Claire
Title: Pollution: The Land We Live On
Copyright Date: 1971
Publisher: Lerner
Interest Level: 6-12
Annotation: This book describes how man is ravaging and destroying the earth's soil and upsetting the balance of nature on a worldwide scale. The author relates new methods of land management and garbage disposal which should help conserve our natural resources.

Author: Maguire, Gregory
Title: Lightning Time
Copyright Date: 1978
Publisher: Farrar, Straus
Interest Level: 5-7
Annotation: When David's mother is hospitalized, David is sent to live with his grandmother in northern New York. Recurrent lightning in the area lends an air of fantasy to the story as David tries to preserve the beauty of the Adirondack Mountain, his grandmother, and himself.

Author: Marx, Wesley
Title: Protected Ocean: How to Keep the Seas Alive
Copyright Date: 1972
Publisher: Coward
Interest Level: 7-12
Annotation: The author is concerned that the life in the ocean is now unbalanced and endangered. The text provides insight

into ocean conservation and offers some solutions for use in the fight for the survival of the ocean.

Title: Maryland Magazine
Copyright Date: Quarterly
Publisher: Maryland Department of Economics and Community Development
Interest Level: K-12
Annotation: This quarterly magazine deals with Maryland history as well as contemporary issues of interest to all Marylanders. The ways Marylanders use our resources is discussed. The full color photographs are striking.

Author: Vasburg, John
Title: The Land We Live On: Restoring Our Most Valuable Resource
Copyright Date: 1971
Publisher: Coward
Interest Level: 6-9
Annotation: After describing the geological background of continents and mountains, the author traces the history of land use in the United States.

NONPRINT RESOURCES:

Series Title: Economy of Maryland
Description of Item and Components: 1 filmstrip, 1 cassette, guide
Producer: Council on Economic Education in Maryland
Copyright Date: 1978
Interest Level: 4-7
Annotation: The preface states that the purpose of this work is to "assist teachers to explain the economy of Maryland to their pupils as they study about the state in upper elementary grades." Older students will find the material helpful.

Series Title: Focus on America
Individual Title: Northeast Region; South; Midwest; Near West Region; Alaska and Hawaii; Pacific States; Focus on American Possessions
Description of Item and Components: Filmstrips, cassettes, guide
Producer: SVE
Copyright Date: n.d.
Interest Level: 5-9
Annotation: This series takes a close look at Americans as we live, work, and relate to our immediate environment, our culture, and our problems. The relationship between people and the land is explored in each area of the U.S. as well as in the possessions. Each geographic region is treated in a separate series of four to six sound filmstrips.

SURVIVAL OBJECTIVE 2.2.1.2

The student will describe ways to conserve natural resources.

GOAL:

To make effective decisions and take appropriate actions regarding one's self in relation to the use and control of nature and technological systems

COMPETENCY:

Understanding the interaction of people with the natural environment

GRADE LEVEL OF OBJECTIVE:

6-8

PRINT RESOURCES:

Author: Berger, Melvin
Title: Jobs That Save Our Environment
Copyright Date: 1973
Publisher: Lothrop
Interest Level: 5-9
Annotation: Careers in the field of environmental control including those related to pollution, city planning, and conservation are introduced. Suggested sources of additional information are given.

Author: Berger, Melvin
Title: The New Water Book
Copyright Date: 1973
Publisher: Crowell
Interest Level: 6-8
Annotation: This book relates the story of water, what it is, where it's found, the properties it possesses, how it affects plant and animal life, and its uses in the environment. Also included are discussions of various types of water pollution, anti-pollution organizations, and water pollution experiments that can be performed for group instruction or as individual projects. The author supports his discussion on water pollution with numerous facts, figures and diagrams which add credance to the subject. An index and bibliography for further reading are included.

Author: Doty, Roy
Title: Where Are You Going With That Energy?
Copyright Date: 1977
Publisher: Doubleday
Interest Level: 5-7
Annotation: Many forms and sources of power and energy are discussed in this book, including fire, water, wind, animal power, coal, steam, animal oils, petroleum, electricity, natural gas, the internal combustion engine, the atom, solar energy, and geothermal energy. The worldwide energy problem is examined.

Objective 2.2.1.2 - Print Resources (continued)

Author: Kraft, Betsy
Title: Oil and Natural Gas
Copyright Date: 1978
Publisher: Franklin Watts
Interest Level: 6-8
Annotation: This well-written, concise book describes how oil and gas deposits are formed, discovered, obtained, refined, and used. The last chapter is devoted to conserving what we have left.

Author: Ricciuti, Edward R.
Title: Plants In Danger
Copyright Date: 1979
Publisher: Harper & Row
Interest Level: 7-12
Annotation: A wealth of information is provided in this fascinating discussion of the ways that plant life is threatened all over the world. Many suggestions are given concerning what can be done to stop the destruction. The superb illustrations enhance the usefulness of this book. Use will be limited to better readers.

Author: Ross, Pat
Title: What Ever Happened to the Baxter Place?
Copyright Date: 1976
Publisher: Pantheon
Interest Level: 3-6
Annotation: The Baxters, a farm family, were forced to sell parts of their land on various occasions. Soon they found themselves not in the country but in the middle of a housing development, a shopping center, and recreation area as the uses made the land change.

Author: Russell, Helen
Title: Earth, The Great Recycler
Copyright Date: 1973
Publisher: Thomas Nelson
Interest Level: 7-10
Annotation: This informative and interesting book provides an explanation of earth's basic building blocks, the components of the ecosphere, and the need for man to play a part in controlling the destruction of his planet. The many photographs and illustrations support and expand the concepts. This book was found helpful when this objective was in the middle school.

Author: Shuttlesworth, Dorothy E.
Title: Disappearing Energy: Can We End The Crisis?
Copyright Date: 1974
Publisher: Doubleday
Interest Level: 6-8

Objective 2.2.1.2 - Print Resources (continued)

Annotation: Disappearing Energy discusses the impending shortages of the world's energy resources, both natural and man-made, and what can be done to avert a major energy crisis. The author uses many photographs to illustrate past and present energy uses and abuses, and future developments in energy technology. This material should be used independently by more mature readers.

Author: Tannenbaum, Beulah and Myra Stillman
Title: Clean Air
Copyright Date: 1973
Publisher: McGraw-Hill
Interest Level: 5-7
Annotation: What air consists of in its pure form, the causes, history, and harmful effects of air pollution, and what is being done to clean up the air in our cities are among those topics on air pollution presented in this book. The author makes use of a question/answer format and lists equipment necessary to perform experiments discussed in the book.

Author: University of Maryland: Science Teaching Center
Title: A Contemporary Issue: Land Use
Copyright Date: 1978
Publisher: Division of Instruction, Maryland State Department of Education
Interest Level: 8-12
Annotation: This outstanding resource packet contains valuable aids for the teacher as well as many student activities concerning wise use of the land.

NONPRINT RESOURCES:

Series Title: ABC's of Environment
Description of Item and Components: 2 filmstrips, 2 cassettes, guide, spirit master book
Producer: Film 24
Copyright Date: 1975
Interest Level: 4-8
Annotation: This is an excellent series to stimulate students to become involved in environmental activities. The two-part filmstrip is a primer of basic environmental issues promoting the concept of good housekeeping, support, cooperation, and involvement. The teacher's manual is carefully prepared with behavioral objectives, teaching techniques, discussion questions, related learning activities, and suggested sources for further information.

Series Title: Checkmate: Our Use and Misuse of the Land
Description of Item and Components: 2 filmstrips, cassette, guide

Producer: AVNA
Copyright Date: 1974
Interest Level: 5-12
Annotation: This is a good series to use after the students have become familiar with some of the basics of ecology. It is designed to show how and why our environment is being destroyed and the part that our profit-based, economic system plays in this destruction. It concludes by stressing the need for developing policies and plans for the solutions to the problems. The material was used when the objective was piloted at a higher grade level.

Series Title: Critical Environmental Issues: Planning for Tomorrow-Unit II
Individual Title: Managing Natural Resources: Trees for 2001
Description of Item and Components: 1 filmstrip, 1 cassette, 1 LP, guide
Producer: Guidance
Copyright Date: 1973
Interest Level: 7-12
Annotation: This informative filmstrip program uses live interviews, on-location photography, and sound effects to introduce young people to the concept of forest management as well as to help them understand that our forest resource is vital to our society and that trees are a renewable resource. This material will be useful with mature readers or under teacher direction since it is difficult.

Series Title: Energy and Everyday Life
Individual Title: Sun, Wind and Water; Energy From the Earth; Saving Energy
Description of Item and Components: 3 filmstrips, 3 cassettes, guide
Producer: National Geographic
Copyright Date: 1978
Interest Level: 6-8
Annotation: An up-to-date series designed to develop concepts of energy conservation. The first part defines energy and the sun as the ultimate source of energy. In the second part, we follow coal, petroleum, natural gas, and uranium from their source to their use in our daily lives. The last part in the series deals with reasons for the energy shortage and the need for conservation.

Series Title: Harnessing the Sun
Description of Item and Components: 1 filmstrip, cassette
Producer: National Geographic

Copyright Date: 1977
Interest Level: 5-12
Annotation: A valuable addition to materials on energy is this filmstrip designed to develop student interest in solar energy. Students should be encouraged to promote the use of solar energy and to learn about energy conservation. The technical quality of the series is excellent.

Series Title: Pollution: Problems and Prospects
Individual Title: The Land; Air and Water
Description of Item and Components: 2 filmstrips, 2 cassettes, guide
Producer: National Geographic
Copyright Date: 1977
Interest Level: 5-12
Annotation: This informative and well-produced set is designed to identify major causes of land, air, and water pollution and to describe ways in which people might reduce pollution.

Series Title: Saving Our Planet
Individual Title: Saving Our Land; Saving Our Air and Water
Description of Item and Components: 2 filmstrips, 2 cassettes, guide
Producer: National Geographic
Copyright Date: 1978
Interest Level: 2-6
Annotation: This timely series complements the series Pollution: Problems and Prospects. These filmstrips emphasize wise use of resources and the consequences of pollution and water waste. Students are introduced to the ways our need for housing, transportation, fuels, and manufactured products can produce environmental damage. They will also learn how citizens' groups, industry, and government are trying to use careful planning to reclaim, recycle, clean up, and preserve our resources.

Series Title: Youth Involvement in Environmental Action
Individual Title: Beyond the Highway; Patchwork Playground; Lost Legacies; It's All Yours; Pots and Plots in Lots of Spots
Description of Item and Components: 5 filmstrips, cassettes, guide
Producer: Girl Scouts of the United States of America
Copyright Date: 1975
Interest Level: 6-8
Annotation: The primary aim of this stimulating series is to expand the notion of eco-action beyond the context of pollution and litter. It is designed to provide

a model for community action projects not only for Girl Scouts but for other service organizations as well. One of the filmstrips, Pots and Plots in Lots of Spots was designed for use with ages 6-10. The remainder of the filmstrips are for grades 6-8.

SURVIVAL OBJECTIVE 2.2.1.4

The student will identify the basic necessities of living things.

GOAL:

To make effective decisions and take appropriate actions regarding one's self in relation to the use and control of nature and technological systems

COMPETENCY:

Understanding the interaction of people with the natural environment

GRADE LEVEL OF OBJECTIVE:

3-5

PRINT RESOURCES:

Title:	Island of the Blue Dolphins
Copyright Date:	1960
Publisher:	Houghton Mifflin
Interest Level:	5-8
Annotation:	Karana is marooned on an island off the coast of California for 18 years. The story of her struggle for survival makes this a fascinating tale.

Author:	Pringle, Laurence
Title:	Ecology
Copyright Date:	1971
Publisher:	Collier-Macmillan
Interest Level:	2-7
Annotation:	This book explores the relationships between living things and the environment and provides background reading for understanding current ecological problems.

Author:	Pringle, Laurence
Title:	The Economic Debate: Are There Limits to Growth? An Impact Book
Copyright Date:	1978
Publisher:	Franklin Watts
Interest Level:	8-10
Annotation:	The author covers such topics as population, food supply, resources, and recycling as he leads the reader to an understanding of changes in attitude and new trends in our use of natural resources and technology.

NONPRINT RESOURCES:

Series Title:	Ecology: Interrelationship in Nature
Individual Title:	Organisms Live Together in Communities; Community Food Energy Flow; Hardwood Forest Community Structure; Grassland Community Interaction; Desert Ecosystem; Swamp Survival Ecosystem; Seashore Interaction of Two Communities
Description of Item and Components:	8 filmstrips, 4 cassettes or discs
Producer:	SVE

Annotation: This series explores the interrelationships and interactions among living and non-living things. It also shows the effect of modifications in natural communities and the environmental problems that sometimes result from such change.

Series Title: Ecology: Understanding the Crisis
Individual Title: Environments and Ecosystems; Man in Ecosystems; Human Communities, Simple and Complex; Creating Imbalances; Destroying the Future; Creating the Future

Description of Item and Components: 6 filmstrips, 6cassettes or records
Producer: Encyclopedia Britannica
Copyright Date: 1972
Interest Level: 3-7
Annotation: In a sequential manner, this series examines the interactions and mutual dependency of plants, animals, and humans in different ecosystems.

Series Title: Ecology: Understanding the Crisis
Individual Title: Environments and Ecosystems; Man in Ecosystems; Human Communities - Simple and Complex; Creating Imbalances; Destroying the Future

Description of Item and Components: 6 filmstrips, guide
Producer: Encyclopedia Britannica
Copyright Date: 1974
Interest Level: 6-10
Annotation: Ecology holds the key to understanding today's environmental crisis. How this crisis has come about is shown in this series. Examples are drawn from many parts of the globe to illustrate man's misuse of nature. Suggestions for turning the tide of ecological destruction are given.

Series Title: Energy and Everyday Life
Individual Title: Sun, Wind and Water; Energy From the Earth; Saving Energy

Description of Item and Components: 3 filmstrips, 3 cassettes
Producer: National Geographic
Copyright Date: 1978
Interest Level: 5-8
Annotation: The purpose of this program is to develop an understanding of what energy is, how we obtain it, and how we use it. It also develops an awareness of the need for conservation.

Series Title: Interrelationship of Nature
Individual Title: Interrelationships of Living and Non-living Things; Balance of Nature; Interrelationships Between Similiar

Organisms; Interrelationships Between Different Organisms

Description of Item and Components: 4 filmstrips, 4 cassettes
Producer: Eye Gate
Copyright Date: n.d.
Interest Level: 4-7
Annotation: This series of sound filmstrips deals with food webs and chains, producers, consumers and decomposers, and the relationships that exist among and between them.

Series Title: Investigations in Ecology: A Biological Approach
Individual Title: Ecological Populations and Communities; Nutritional Relationships in Nature; Material Cycles in Nature; Food Webs and Pyramids; Ecological Succession; Problems in Ecology

Description of Item and Components: 6 carousels, guide
Producer: Denoyer-Geppert
Copyright Date: n.d.
Interest Level: 5-10
Annotation: This slide tape series is designed to help students develop basic understandings about the balance of nature, food chains and webs, and natural or human acts which may ecologically alter balanced communities. This set was designed to be used in normal lighting and can be projected on chalkboard. Because this objective was piloted in a secondary school, teachers will want to examine this material carefully to determine if young students can handle it.

Series Title: Learning About Ecology
Individual Title: What is a Community?; What is a Food Chain?; Life Cycles; Living Things Depend on One Another; Adoptations for Survival; How Humans Affect Living Things

Description of Item and Components: 6 filmstrips, 1 cassette, guide
Producer: Encyclopedia Britannica
Copyright Date: n.d.
Interest Level: 2-6
Annotation: Ecological communiities such as a forest or a desert are investigated so that the viewer will understand the effects of one form of life on another within the same system. Outside effects - hunting, pollution, misuse of land - are also examined and their impact on the life of the specific community is emphasized.

Series Title: Nutrition for Young People Series
Individual Title: What is Food?

Objective 2.2.1.4 - Nonprint Resources (continued)

Description of Item and Components:	1 filmstrip, 1 cassette, 1 LP record, guide
Producer:	Guidance
Copyright Date:	1976
Interest Level:	5-9
Annotation:	This program gives students a basic understanding of the interdependence of all life forms. It shows how people, plants, and animals are made up of the same basic chemical compounds and tells how energy is converted from one form to another. Concepts such as photosynthesis, food chains, and food webs are demonstrated.

SURVIVAL OBJECTIVE 2.2.1.6

The student will explain the major types of pollution in the environment.

GOAL:

To make effective decisions and take appropriate actions regarding one's self in relation to the use and control of nature and technological systems

COMPETENCY:

Understanding the interacton of people with the natural environment

GRADE LEVEL OF OBJECTIVE:

6-8

PRINT RESOURCES:

Author:	Carr, Donald E.
Title:	Death of the Sweet Waters
Copyright Date:	1966
Publisher:	Norton
Interest Level:	7-12
Annotation:	This book is an indictment against unchecked water pollution. It is also a study of related subjects such as soil management, river basin behavior, and rain patterns.

Author:	McCoy, J.J.
Title:	Shadows Over the Land
Copyright Date:	1970
Publisher:	Seabury
Interest Level:	9-12
Annotation:	This book stresses the "quality of life" today and in the future. It also suggests that life on earth may end by the year 2000. Material is still of value even though copyright is ten years old. Because this book was used in a senior high school pilot program, teachers will need to examine it to determine its appropriateness at this lower grade level.

Author:	Ward, Barbara
Title:	Only One Earth, Care and Maintenance of a Small Planet
Copyright Date:	1972
Publisher:	Norton
Interest Level:	10-12
Annotation:	This book was commissioned by U.N. Secretary-General. It is an attempt to examine environmental problems from a global perspective. It includes population growth, misuse of resources, impact of technology, uncontrolled or unbalanced development, and the world-wide dilemma of urbanization. Since the objective was piloted at a higher level, teachers will need to determine if material is useful in grades 6 to 8.

Objective 2.2.1.6 - (continued)

NONPRINT RESOURCES:

Series Title: Critical Environmental Issues: Planning for Tommorow Today - Unit II

Individual Title: Man's Natural Environment: Crisis Through Abuse

Description of Item and Components: 2 filmstrips, 2 cassettes, 1 LP record, guide

Producer: Guidance

Copyright Date: 1970

Interest Level: 8-12

Annotation: Documented examples are used to demonstrate the catastrophic dangers imposed by environmental pollution in a technological age. Students review the factors which contributed to the death of Lake Erie: industrial, municipal and agricultural pollution, oil spillage from tankers, and public littering. The consequences of the Santa Barbara oil leak are examined: mutilation of beaches and widespread destruction of marine life. Former Secretary of the Interior Stewart Udall describes the annual death toll and dollar cost attributed to air pollution. Students learn of the physical and psychological dangers of noise pollution as well as the ill effects of pesticides and other chemical agents. The program emphasizes the need for citizens to organize and act in defense of our natural environment. Other titles in this series are Food and Population: Striking a Balance; People Problem: The Future of World Population; Environment: Changing Man's Values; and, Managing Natural Resources: Trees for 2001. This material was used in the secondary pilot school program.

Individual Title: Environmental Crisis: What the Individual Can Do

Description of Item and Components: 1 filmstrip, 1 record, guide

Producer: National Education Association

Copyright Date: 1970

Interest Level: 6-12

Annotation: This sound filmstrip points out what individuals can do to reduce pollution and to prevent irreversible damage to the environment.

Individual Title: Our Mountains of Trash

Description of Item and Components: 3 filmstrips, 3 cassettes

Producer: Time-Life

Copyright Date: 1972

Interest Level: 7-12

Annotation: This kit examines three aspects of pollution:
Part 1 - An Avalanche of Trash
Part 2 - A Disposal Crisis
Part 3 - Reclaiming our Waste

Individual Title: Air Pollution
Description of Item and Components: 22 slides, guide
Producer: J. Weston Walch
Copyright Date: 1969
Interest Level: 6-12
Annotation: This slide set looks at some of the evidences we have of air pollution, the harmful effects it can produce, the ways in which the air gets polluted, and the attempts being made to solve problems of air pollution.

Individual Title: Water Pollution
Description of Item and Components: 22 slides, guide
Producer: J. Weston Walch
Copyright Date: 1968
Interest Level: 6-12
Annotation: This slide set examines some of the main causes of water pollution, and shows what it is doing to our streams and harbors.

Individual Title: End of One
Description of Item and Components: 16mm film
Producer: Learning Corporation of America
Copyright Date: 1970
Interest Level: 6-12
Annotation: A wordless parable of modern society in which masses of seagulls fighting for growing mounds of garbage are interspersed with the final feeble movements of a single dying bird while tractors and jet planes roar in the distance.

Individual Title: The House of Man: Our Changing Environment
Description of Item and Components: 16mm film
Producer: Encyclopaedia Britannica
Copyright Date: 1964
Interest Level: 6-12
Annotation: This film reveals the waste of resources in cities, woodlands and farmlands, and the pollution of rivers and of the air. It compares progress through wasteful methods and through the intelligent preservation of resources.

Individual Title: Population and Pollution
Description of Item and Components: 16mm film
Producer: International Film Bureau
Copyright Date: 1971

Interest Level: 6-12
Annotation: This film portrays the present environmental crisis in North America caused both by misuse of the environment and by the great demands of a constantly growing population. It emphasizes the need for changes in attitude and for a commitment to finding both short-range and long-range solutions to the problems of air, water, and land pollution.

SURVIVAL OBJECTIVE 2.3.1.2

The student will locate sources of information about public services.

GOAL:

To know and use human resources in meeting life needs and pursuing personal interests.

COMPETENCY:

Knowing community resources

GRADE LEVEL OF OBJECTIVE:

6-8

PRINT RESOURCES:

Title: Encyclopedia Of Associations: Volume 1; National Organizations of the U.S.
Copyright Date: 1975
Publisher: Gale Research
Interest Level: 7-12
Annotation: Until 1970, all entries in this major source of information concerning American membership organizations of national scope, were non-profit organizations. Since 1970, however, the editors have included certain organizations which are profit-making. This reference provides information concerning the location, size and objectives of thousands of trade associations, professional societies, labor unions, fraternal and patriotic organizations, and legal organizations. It consists of three volumes: Volume 1 - National Associations of the U.S., Volume 2 - Geographic - Executive Index, and Volume 3 - New Associations and Projects. Volume 3 has been published as an inter-edition to provide information on newly formed or newly identified associations which were not included in the basic Volume 1.

Title: Information for Everday Survival: What You Need and Where to Get
Copyright Date: 1976
Publisher: ALA
Interest Level: 9-12
Annotation: This is an excellent help for solving everyday problems. The annotations describe free and inexpensive materials under subheadings such as Abortion, Getting a Job, Personal Finance, and Remodeling a Home.

Author: Hyde, Margaret O.
Title: Hotline
Copyright Date: 1974
Publisher: McGraw-Hill
Interest Level: 7-12

Annotation: The author describes the types of calls dealt with - suicide attempts, parental problems, all types of sexual problems, pregnancy, rape, sudden physical and psychological illnesses, drug abuse, loneliness, social problems, and others. Actual case histories are given. Readers can "listen in" on typical telephone calls and can find out if there are any hotlines in their community. Mrs. Hyde explains how volunteers are required to undergo an extensive training program prepared by doctors, lawyers, and psychologists. A National Directory of Hotline Services has been included, which gives the addresses and telephone numbers of hotlines throughout the country.

Description of Item and Components: 12 shortstops (each shortstop consists of 14 frames.) A plastic hand viewer is included with each set.

Producer: Encyclopedia Britannica

Copyright Date: n.d.

Interest Level: 4-8

Annotation: This series provides information on what community services are, how they help us, who pays for them, and why will they be even more important in the future.

SURVIVAL OBJECTIVE 2.3.1.8

The student will identify formal and informal educational opportunities available in the local community.

GOAL:

To know and use human resources in meeting life needs and pursuing personal interests

COMPETENCY:

Knowing community resources

GRADE LEVEL OF OBJECTIVE:

5-6

Vertical file resources to help develop competency in this area may be obtained from local sources such as:

Department of Education
Museums and galleries
Universities, colleges, community colleges, trade schools
Special Agencies such as Red Cross, YWCA, YMCA, Senior Citizens Councils, Urban Service Agencies
Church-related schools and colleges
Newspapers and magazines
Department of Recreation and Parks
Information and Referral Service of the Public Library

SURVIVAL OBJECTIVE 2.3.1.9

The student will identify the services provided by the public library.

Title: Teach Your Child To Manage Money
Copyright Date: 1974
Publisher: U.S. News & World Report
Interest Level: 8-12
Annotation: This book covers basic information on financial management for young people. Beginning at the pre-school level and continuing through the college years, guidelines are given through examples in such matters as living with a budget, learning to spend money wisely, and economic guidelines for traveling. The sections on credit deal with the costs of credit, the establishment of credit, long-term use, short-term credit, and credit cards. While this book is not as outstanding as Cobleigh's What Everyone Should Know About Credit Before Buying Or Borrowing Again it could be very useful at the Jr. - Sr. High School levels.

Author: Weinstein, Grace W.
Title: Money of Your Own

Copyright Date: 1977
